

Radio station KLOVE is my choice 90% of the time I listen to radio. There is no other station in this locality that serves my needs. If KLOVE were to be displaced due to your ruling I would not be able to find what I need in the Omaha area. This station provides me with a means of listening that I never have to worry about what my son will hear when with me. There is so little on the airwaves now that a family can listen to together that if an LPFM replaced KLOVE I would consider your commission to have ill served this community.
